

# MMS 212

The MMS 212 1/2" measurement microphone set is designed for operating in extreme levels of temperature, humidity, dust and vibration. The ability to perform in the harshest of conditions is achieved by a skillful redesign of the protection grid, pressure compensation vent and connector.

Furthermore, quick and reliable measurements are facilitated by an integrated status LED confirms power-on, alerting the user to a sensor or cable failure.

- Ruggedised
- LED status light
- IP67 including water-proofed connection
- Unique IEPE/CCP powered, externally polarised capsule
- TEDS
- Microtech Gefell 4010 calibrator recommended
