## 36-MONTH GENERAL WARRANTY

Thank you for choosing a SVANTEK product. We are sure it will be an excellent, failure-free tool for your everyday work. Therefore, our products are covered by a 36-month warranty in case of any visible or hidden material defects or defects in product quality.

SVANTEK is obliged under the warranty to repair the product or replace the product or its components.

The warranty period takes effect as of the date the product was first purchased. Warranty for batteries built in the SVANTEK products is limited to 6 months as of the date of purchase.

The warranty does not cover damage caused by: mechanical impact, short circuits (including incorrect connection of ground in measuring systems), water or moisture damage, battery corrosion or chemical corrosion, not following the manual during use, damage during shipment or repairs by an unauthorised person, as well as wilful damage to the product.

In order to claim the warranty, the product must be delivered to SVANTEK, an authorized distributor or service center of SVANTEK. This warranty is valid only if accompanied by the proof of purchase issued by SVANTEK or its official distributor.

The warranty does not cover insurance costs or other additional costs not connected directly with the performance of warranty obligations by SVANTEK.

The warranty does not exclude, restrict, nor suspend the rights of the buyer arising out of the regulations on statutory warranty for defects in a sold item. Any disputes related to the warranty shall be finally settled by a Polish common court having jurisdiction over the SVANTEK registered office. However, the parties shall initially try to resolve any dispute amicably.

After the warranty expires and in all cases when this warranty does not apply, you should contact a local representative of SVANTEK or use the contact form at: **[www.svantek.com/contact](http://www.svantek.com/contact)**

To claim your 36-months warranty register your product within 3 months from the purchase date at:
